Fundamental Movement Resources
Teaching activities specifically designed by curriculum experts and mapped to the new Australian HPE Curriculum. PE equipment pack contains everything you need to fully implement the program.

Outdoor PE classroom
Easy, do-it-yourself blueprints and pre-cut stencils transform your hard surfaces into colourful and engaging learning spaces for movement activity stations. The permanent markings take the time and hassle out of organising PE lessons.

Teacher training
Staff development webinars, perceptual movement guides and activity task cards provide comprehensive support for teachers implementing the program.
